The History of TireLock.com

The Vehicle Immobilization Experts

Tirelock has been operating for 12 years, it was founded in 1997 in Santa Fe New Mexico (Pitbull Tirelock), with one basic Tirelock-the PitBull, designed with the help of an engineer at Los Alamos Labs. Tirelock.com mission is providing high quality, yet easy to use vehicle immobilization and security products. Since moving to New Jersey, TireLock.com has been producing more wheel lock devices such as our wolverine and other products as well as accessories, since then we have grown as a corporation and have continued to expand by doing business with hundreds of municipalities, police departments, hospitals and universities.

TireLock Accessories

Pitbull Weather Cover

Made of an advanced polyurethane. It attaches in seconds and protects from the elements.

Warning Notices

Dimensions: 8" x 8"
25 Stickers per pack

Pitbull Cylinder and Keys

Each cylinder comes with a set of two keys.

High quality tubular - style lock. Incredibly tamper proof and secure.

No risk of "Bic Pen" picking.

If ordering a replacement online, please specify the key-code via the comments form.

Warning Signs

Dimensions: 12" x 18"

This reflective, attention grabbing sign gives possible parking violators ample warning that they will be immobilized if parked illegally. Easy to install and highly visible
